DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-9, 12 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al. (2004/0027482).

Regarding claim 4, see the control of matrix values 2*2, 3*3, and 4*4 in paragraphs 0037 and 0039.

Regarding claim 5, see menu program in paragraph 0034.

Regarding claim 6, see paragraph 0036.

Regarding claim 7, Lee inherently includes an analog-to-digital converter for converting analog television signals into digital signals (see paragraph 0034).

Regarding claims 8, 9, 12, in addition of above, Lee inherently includes a first and second selecting units (see C*R position in paragraph 0036). In addition, the device ID in paragraph 0047 meets the input order as claimed.

Regarding claim 15, see rejection to claim 1.

3. Claims 10, 11, 13 and 14 are allowed.
